Six months.....2 00

The close of each decade has witnessed an increase of the number of rich men. In the last three decades the growth of private fortunes in the United States has been something astonishing.

A life convict in the Kansas penitentiary has petitioned the governor of that state to sign his death warrant thus permitting him to be executed. People who object to the imposition of the death penalty should give the case their consideration.

GREAT destitution is reported from Oklahoma, where the people are suffering because of a failure of crops. Oklahoma is a part of the country where agriculture always will be uncertain until the people adopt irrigation.

ALL Butte has to do to keep up its divorce record is to gain the unenviable notoriety of having the greatest divorce mill in the United States. Forty-four divorces were granted there last year, 33 upon complaint of the wife and 11 on complaint of the husband.

Rev. JOHN MORROW, an Omaha minister has promulgated a new and startling theological doctrine which he terms "worshipping in the nude." The followers of the creed do it, too, and they are all women except the Rev. John himself. The followers of this marvelous dogma give as their authority for it the Bible. The Rev. John should be suppressed.

Nor one goldbug was found among the entire lot of Arkansas editors who visited Colorado recently. They were all free silver men, and now that they have visited the greatest silver producing section of country in the world and talked to the best informed people concerning bimetalism, they have returned home stronger advocates of the white metal than ever before.

At the rate the campaign of education on the money question is progressing, before the national conventions are held a year hence the people will have far more intelligent opinions on it than they have now. The people want no more panics, and they will vote for no policy that will bring on a panic or financial revolution. An era of prosperity is opening and with it the improvement of business give clearer and more unbiased views of these fundamental questions, which are not political but scientific. The people can be trusted to vote rightly, when they have had an opportunity to learn the truth of the questions involved.

ONE of the best schemes yet devised by an eastern newspaper for the purpose of feeling of the pulse of the people is that put in practice by the Chicago Record, which publishes daily a silver debate ballot. The question submitted is as follows:

"Shall the United States open its mints at once to the free coinage of silver, without regard to other nations and at the ratio of 16 to 1?"

Lines are left for the writing of the name of the person answering "yes" or "no," and the voter is also required to give his present address, and his address, residence and ward at the spring election. The election judge selected by the silver men is Clarence S. Barrow and the gold standard judge is Washington Hession. The ballot is only for the legal voters of Chicago whose names appear on the poll lists of the last city election, no person will be permitted to vote more than once. It will be readily seen that the Record has struck upon a most feasible plan of getting the sentiments of the voters of the Illinois metropolis and if the people of that city will take an interest in the matter we should soon know how they stand on the silver issue. It is gratifying to know that thus far silver is ahead. Up to Saturday last there had been 2,029 votes cast, of which number 1,221 were for free coinage of silver, and but 799 or the single gold standard.

Come to the Sea. The Horton House wants you to take advantage of the cheap railroad rates and visit San Diego this summer. We will give you reduced rates while here. See frontage, Best table in the city.

GRAND JURY REPORT.

Full Report—Some Wholesome Recommendations.

In the District Court of the First Judicial District of the Territory of Arizona, in and for the county of Cochise.

To the Hon. J. D. Bethune, Judge of the First Judicial District, Sir:

We, the grand jury for the May 1895 term, respectfully submit this our final report.

There were eighteen (18) cases submitted to us, and of them we found nine (9) indictments and ignored nine (9).

We have examined the report made by the experts who were employed by the board of supervisors to look into county affairs for the past two years, also experts and witnesses.

We have examined into the condition of county hospital and county jail; reports of those committees hereto attached and made a part of this report.

Regarding expert's report, we find some clerical errors amounting to about thirty-one and 20-100 dollars. We further find in this report mention of \$37.40 paid Mr. Williams, Justice of the Peace, by warrant No. 284, same amount and for the same service included in warrant No. 1092, but upon further investigation we find that Justice of the Peace Williams corrected this error by refunding or paying into the county treasury the said \$37.40 on January the 10th, 1895, this date being previous to order made by board of supervisors for the said investigation. All items of overcharge mentioned in expert's report, we understand to grow out of a difference of opinion in construing the law.

Regarding the sheriff's accounts: A case—Scott vs. Pima county, now before the supreme court of the territory, will judicially determine the question of over charges of Ex-Sheriff Scott White, mentioned in expert's report. We find nothing in said expert's report which would indicate dishonesty or corruption on the part of any official in the discharge of the functions of his office. We think the amount—four hundred dollars—paid the experts excessive.

COUNTY HOSPITAL.

TOMBSTONE, June 9th, 1895. To the Foreman of the Grand Jury: Your committee appointed to examine into the condition of the county hospital, etc., beg leave to submit the following report:

We visited every department of the hospital and find that the same is kept in a neat and clean condition, except the bath room and water-closet, which we find is unclean and not conducive to the health of the patients in the hospital.

We also talked with all the inmates of the hospital and they expressed themselves fully satisfied with their treatment therein.

We also find that the two sky-lights on the hospital, and also the ventilator on the roof of the kitchen of the same, leak badly when it rains, and recommend that they be repaired at once.

We also recommend that the operating room be better ventilated and receive a thorough renovation.

We also find that the yard around the hospital is in filthy condition, and recommend that it be kept in cleaner condition; also, that the contractor for the care of the indigent sick be required to furnish such cooking utensils as are now required in said hospital. Respectfully submitted,

H. COOK,
Chairman Committee.

COUNTY JAIL.

TOMBSTONE, Ariz., June 7th, 1895.

To the Foreman of the Grand Jury for the May term of court in the year 1895:

We the committee appointed to inspect the jail of Cochise county, situated in the city of Tombstone, after thoroughly inspecting same, beg to report that we found everything in sound condition, clean and well kept. Prisoners stated that they were well fed and kindly treated.

M. D. SCRIBNER,
Chairman Committee.

We, the members of the grand jury, find on investigating cases committed and held by some of the justices of the peace for investigation by the grand jury, should have been disposed of by said justices by charging them with a lesser offense and inflicting such punishment as the circumstances and evidence in the case would warrant, thereby causing justice to be done.

LEVI STRAUSS & CO'S

COPPER RIVETED CLOTHING

EVERY GARMENT GUARANTEED.

FACTORY - SAN FRANCISCO - CALIFORNIA.

Saving the county unnecessary expenses and the witnesses much inconvenience.

Respectfully submitted.

M. T. WILLIAMS,
Foreman.

Another Mining Deal.

F. J. O'Brien, a wealthy manufacturer of Providence, Rhode Island, was one of Tombstone distinguished visitors today, and paid the PROSECUTOR a pleasant call. Mr. O'Brien has for years been a heavy stockholder in the Eagle and other mines in the northern part of the territory, and was interested in several mines in the Winchester district, this county, many years ago. This is his second visit to Tombstone and although we are not in population what we were when Mr. O'Brien first visited us, yet he expresses surprise to find our town so thriving and prosperous as it appears. Through Colorado and Nevada he found towns which are also dependent on silver mining almost deserted, and was agreeably surprised to find Tombstone as lively as this. Mr. O'Brien is here to look at some mining properties in the Huachuca, and upon his report depends a sale of no small dimensions, Mr. O'Brien being a mining man of experience and is one of a company of seven wealthy gentlemen of his state, in whose interest he is here. No further disclosures or particulars are given by Mr. O'Brien until he has reported on the property in question leaving for his destination tomorrow morning.

BISBEE SUNBEAMS.

A LIVELY MILL.

BISBEE, June 12, 1895.

Our sporting editor reports a rattling four round exhibition dog-fight at F. M. McKay's saloon yesterday. McKay's dog and a Sullivan-looking bulldog were the participants, and strange to relate McKay's dog fought his burly opponent to a stand-still. During the first round they foiled around at long range and got an idea each of the other's fighting weight. In the second round the bulldog rushed the "bird" dog with the intention of forcing him to in-fighting, but the McKay animal side-stepped and put in a couple of scorchers on the bulldog's snout. Round two went at a galloping rate and wound up with honors even. Round three was a repetition of the second. In the second half of the fourth, the police interfered and the referee declared the fight no contest.

THE SPECIAL VENUE.

Deputy Sheriff Caldwell has been rounding up some more reluctant jury men. This is an entertaining though painful spectacle to see Caldwell in hot pursuit of some frightened Bisbeeite, their individual coat-tails flaunting in the breeze, the while a delighted audience cheer them on and make bets on the outcome of the heat. Caldwell invariably runs his victims to earth though it sometimes requires the assistance of Deputy Constable Dave Graham, who can head them off with a hoe-handle or chase them into a box canyon with a dexterity that comes only of long practice. Those cornered at time of writing were Geo. Clawson, August Geisler, Joe Muhheim, and D. Munio.

THE SCHOOL-HOUSE.

Has been undergoing repairs during the past few days. Several doors and window shutters have been replaced and new ink-wells put in some of the desks, and everything in and about the Parnassian works being rehabilitated.

A GENERAL FAVORITE.

Is kindly old ex-Judge J. W. Wright. Mr. Wright has lately accepted the sole agency for this town of Wanner & Brown's monster clothing establishment, and is clothing us in neat well-fitting suits at a pace indicative of universal satisfaction with his goods. We refer the reader to Mr. Wright's ad in another column.

RECENT ARRIVALS.

Are Louis Hansen, Denver; B. F. Brown, Erie Cattle Co., ranch; Ant. Hittinger, Tucson.

THE WEATHER.

At time of writing the sky is overcast with black threatening clouds but a heavy wind is blowing and the chances are that they will be dispersed.

ITEMS OF INTEREST.

The Cochise Club are contemplating a tea-party for the near future.

The big dome is advancing at the rate of a section daily.

Dan Hawkins' cosy billiard parlors are a popular resort for the boys these days.

Mr. Wittig is reported today out of danger and steadily improving in health.

Our home talent are putting in much of their time memorizing their lines in the dramatic sketch to be given Friday next. Mrs. O'Meara is to fill one of the leading parts. To her natural aptitude for the drama is added a thorough elocutionary training and the young lady may be relied upon to carry out her role with success. Mrs. Mae Walsh and Miss M. Munch also take part.

Like a Sieve.

The chief function of the kidneys is to separate from the blood, in its passage through them, of certain impurities and watery particles which make their final exit through the bladder. The retention of these, in consequence of inactivity of the kidneys, is productive of Bright's disease, dropsy, diabetes, albuminuria and other maladies with a fatal tendency. Hostetter's Stomach Bitters, a highly sanctioned diuretic and blood purifier, impels the kidneys when inactive to renew their sifting function, and strain from the vital current impurities which invest it and threaten their own existence as organs of the body. Catarrh of the bladder, gravel and retention of the urine are also maladies arrested or averted by this benign promoter and restorative of organical action. Malaria, rheumatism, constipation, biliousness and dyspepsia also yield to the Bitters, which is also speedily efficacious to the weak and old nervous.

The Coming Gold Country.

From Mr. J. J. Seville of Dos Cabezas we learn that at the Cottonwood Mining Co.'s properties, the bonanza of his district, three 8-hour shifts are being constantly worked. That the fortunate owners Messrs. Waughal & Coleman, two well known practical mining men are reaping profitable returns from their producer is best judged from the fact that their monthly bullion shipments from the small mill amount to nearly \$2000 while the receipts from concentrates added will swell the amount to about \$3000 monthly.

The mill is but of 5-stamp capacity, but is kept pounding on good ore that is taken from a well defined ledge of from 1 to 3 feet in width. About ninety feet in depth has so far been attained in the mine, and the owners have signified their intention to sink to a considerable depth further and open up the ore bodies on extensive scale.

Mr. Seville informs us that the Cottonwood properties are of the most promising in the district, and with depth and development work will prove one of the beggliest producers in the territory. There are other mining properties and prospects of great promise in this coming gold section of the southern part of Arizona.

Dos Cabezas is strictly a gold mining country, and has been an almost constant producer of the yellow metal for 20 years, not in large quantities but sufficient to provide necessities for quite a settlement of people.

That entire section of country reaching from Dos Cabezas east and south-east for thirty miles, is mineral bearing, and gold predominates. The day is coming, and that not far off when enterprising men will seek this country as a place for investment that will bring greater and surer returns than any other legitimate business in any other section of this great country will guarantee.

George W. Cheyney left on the noon coach today for Tucson.

Jimmy Nichols came over from Bisbee today to attend court.

E. Crouch and Hoace Mann were outgoing passengers today for Bisbee.

Many jurors and witnesses returned home today to various parts of the county.

Court will probably last until Saturday as Judge Bethune will hold court in Pima county on the 17th.

A marriage license was issued by Probate Judge Bradley yesterday to Albert H. Norcross of Benson to wed Sarah Merrill of St. David.

John P. Gray is in the city from Rucker canyon. He reports his section as in prosperous condition and with a little rain feed for another year is secure.

It is reported that the S. P. road will abandon its line of track between Gila Bend and Tucson and construct a new line between these points by way of Mesa City and Florence.

The Prescott Courier is in receipt of a letter from Killarney, Ireland addressed to the editor of the "Tribune" and the "Arizona Kicker" in the shade.

A Mexican surprise party or "blow-out" near the City Hall started about 5 o'clock yesterday evening, and is in full blast as we go to press. They give evidence of as great longevity as a Chinese theatre, and are just about as interesting.

The grand jury report is short but sweet, their views and recommendations are set forth in clear concise form and they are to be congratulated upon avoiding the long-winded reports that generally are emanate from this body.

George W. McLane, who has been in Tombstone for a few days, left this afternoon for the Huachuca mountains where his family resides. He will remain with them a short time when he will again take his departure for Central America, but has promised to let us hear from him now and then.

As the rainy season approaches the appearances are more threatening. At five o'clock the clouds were thick and heavy in the south-west and also in the north-east; at sun rise it was red and angry looking in the east and this evening the west gives indication of a change; and so from all points the evidences are good for rain in the near future. We hope the signs won't fail.

The 4th of July committee are still hard at work making arrangement for our celebration, which is going to be a "rouser." Everybody and their girls will be here, and the old folks are coming along to take care of them. The committee realize this fact, and feel the weight of the responsibilities resting upon them, and are exerting every effort to appropriately entertain the whole crowd, and the people will appreciate their efforts.

The two boys who robbed postoffice boxes in Phoenix some months ago have been sentenced to be confined in the reform school at Pontiac, Illinois, and was taken to that place by Deputy Sheriff Henry George. The Star aptly says that when Arizona's new reform school at Flagstaff is completed the expense of such a trip will be saved, and the more fact of the existence of such an institution cannot fail to exercise a salutary influence over young America.

The entire day was taken up in court today in the hearing of the libel case of the Territory vs. Reilly. The district attorney and Wm. H. Barnes appeared for the prosecution and English and Smith for the defense. The case was argued, and a stack of record books, etc., piled ceiling high was introduced in evidence, and each witness put through the legal mill. At 3 o'clock the case was closed and the balance of witnesses not called were discharged. Two hours each were allowed the lawyers to argue the case before the jury, and as we go to press an eloquent appeal is being made by the attorneys. The case will probably not be given to the jury until late this evening, a night session being probable.

F. N. Wolcott keeps a full line of bicycle supplies of all kinds.

TWENTY-FIVE

Reasons Why Cochise County Is Destined to Prosper.

It has the finest climate of any spot on the Pacific Coast.

As a health resort it cannot be excelled.

Because it is on the continental divide between San Francisco and New Orleans.

The nights are always cool. There were but three nights during last summer that the thermometer did not go below 70 degrees.

There are thousands of acres of land that can be had for nothing.

It is the finest fruit country on the American continent. All varieties of fruit and berries grow to perfection.

Four different lines of railroads are located within its borders.

Its mountain ranges are vast store-houses of the precious metals.

It has produced more bullion than all the other counties put together.

Its rain fall is always certain and is about equally divided between the winter and summer months.

Its public school system is perfect and its funds are ample for all purposes.

It is on the border line between Mexico and the United States and the trade between the two countries is large and increasing.

It is the only county in the territory that has extensive turquoise fields.

Its mountain ranges are timbered with pine and juniper which makes excellent timber.

There is an abundance of water in the mountain streams all of the year. It has three valleys traversing its entire length which are from 20 to 30 miles wide.

The wage worker receives a fair compensation for his labor, and fortune awaits those who will work for themselves.

No other section of the United States offers so many inducements to those who will come here prepared to work.

It is still in its infancy as mining, stockraising or farming country.

The extensive coal fields just below the line in Sonora will soon be tapped and another railroad will soon cross its confines.

Its lands are more productive than any other on the continent.

It is the only county in the Territory which has developed a large and steady flow of artesian water.

Its newspapers are progressive and believe in the future of Cochise county.

There is room for 10,000 families to live and prosper on the vacant lands still belonging to the government.

Come to Cochise county and grow up with the country.

For further information, address, IMMIGRATION COMMISSIONER, Tombstone, Arizona.

Is Your Blood Pure

If it is, you will be strong, vigorous, full of life and ambition; you will have a good appetite and good digestion; strong nerves, sweet sleep. But how few can say that their blood is pure! How many people are suffering daily from the consequences of impure blood, scrofula, salt rheum, rheumatism, catarrh, nervousness, sleeplessness, and

That Tired Feeling. Hood's Sarsaparilla purifies, vitalizes and enriches the blood. Therefore, it is the medicine for you. It will give you pure, rich, red blood and strong nerves. It will overcome that tired feeling, create an appetite, give refreshing sleep and make you strong.

Hood's Sarsaparilla Is the Only True Blood Purifier

Prominently in the public eye today.

Hood's Pills (the after-dinner pill and family cathartic, etc.)
